Recognition Letter – GE water projects in Israel

Dear Sir,

I hereby confirm that El-Mor Group, our electrical partner has done an excellent work for us in the build and the installation of switchboards for SCADA and control systems of GE water projects in Israel, contributing to our great success with these projects.

The project included MBR system is used for the wastewater treatment and purification of Jerusalem municipal wastewater plant, with hydraulic capacities of 20,800 m³/d.

Together with you, we managed to perform with a great success and appreciation. I would like you to forward our appreciations to your company and the professional and highly dedicated team that were very good performing in this challenging environment.

Yours sincerely,

Zachi Stromza

Manager, Automation & Software Solutions Division

General Engineers Ltd.
